Business Information

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you. Closed from Saturday noon to Monday morning.

THESE PRICES are in effect Fall 1962, Spring 1963.

ALL OUR STOCK is fresh dug for each order. None of it is in storage except strawberry plants.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists, and dealers. Maryland customers are subject to 3% sales tax or send your License Number. All delivery costs are to be paid by purchaser.

PACKING. Boxes and bales will be charged costs of material and labor used. We will add this cost to your invoice. **This cost applies whether you remit with order or buy on time terms.**

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

TERMS. Net, no discount or net 30 days from date of shipment to those of known responsibility **but must have satisfactory business references from others or remittance must accompany order.** Those desiring stock shipped C.O.D. will please remit **one-fourth** the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty, expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock, carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company.**

HARDINESS OF PLANTS. When hardiness of plants is mentioned herein it applies to this section.

TIME OF SHIPMENT. We ship most every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants, but if you want them out of season and are willing to take the risk of good delivery, we will pack with the utmost care and get them off to you at most any time you want them. Risky shipping in hot summer.

Plan to Visit Our Nursery

We will certainly be glad to have you come to see our stock for yourself. We believe you will find it compares favorably with that grown by other nurseries. Some of our customers have told us it is better than is furnished by some others. We are on the Eastern Shore of Maryland, 100 miles south of Wilmington, Delaware, 100 miles from Kiptopeke-Norfolk, Va., ferry, 90 miles from Annapolis, Md., via Chesapeake Bay Bridge, 150 miles from Baltimore, Md., via Elkton, Md., 225 miles from New York, N.Y. We are on U.S. Route 50, 10 miles east of Salisbury, Maryland.

Ornamental Stock

1 to 5 at each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the thousand rate.

If a variety is listed at 10 rate and not each rate there will be an additional charge of 15 cents per plant if less than 5 are ordered.

Items marked by an asterisk (*) are classed as Lining-Out stock.

AUNT MARY'S SWEET CORN

The Sweet Corn Supreme

This is the most wonderful Sweet Corn we have ever grown. One grower describes it as "the best Sweet Corn in the world."

Has the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artificial heat to cure it for seed purposes.

Aunt Mary's Corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the Corn-loving public than most any other variety and that appeal continues long after you are tired of other Sweet Corns.

Liberal size packets, 35c each; 3 for $1.00, postpaid.

$2.00 per pound, postpaid.

If after growing this wonderful Sweet Corn you are not entirely satisfied, we will refund every cent you paid us for it.

This nursery was started just 57 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stays in business. If you have any reason for complaint, tell us.

A FASCINATING HOBBY

Growing Azaleas is a hobby which provides an ever increasing source of interest. There are so many species to be had and so many almost breath-taking new hybrids being produced, that one is amazed at the magnificent display that we may have with only a small space of ground and a few of the newer plants that are now being offered. If you want a stimulating (and profitable) hobby that grows more interesting, beautiful and valuable every year, then grow azaleas.

AS GOOD AS CAN BE GROWN

We are exerting effort to produce the very best stock that can be grown, and in our fifty-seven years' experience we believe we have never offered bigger values than we are offering this season. Even with the short supply of Lining-Out stock we have kept our prices at a low level. We feel sure you will be more than pleased with the stock we send you if you give us your order.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

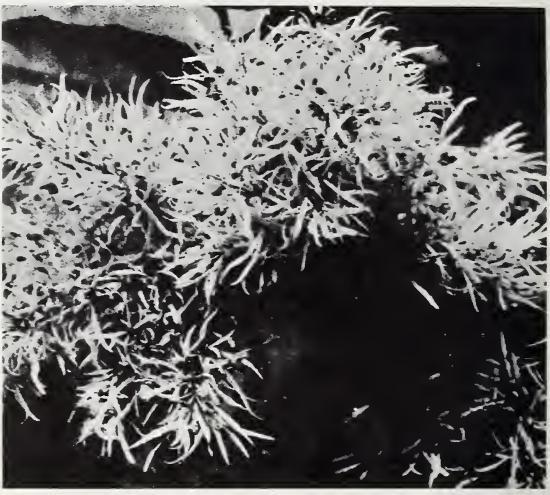
MAPLES

We like to refer you to our collection of Maples especially in lining-out sizes. We believe there will be a good demand for Maples in the future. You will notice many articles being published about them. This always creates a demand—especially when the article is good. We have tried to keep our prices reasonable.

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you. Closed at noon Saturdays.



FRAXINUS ORNUS

It is still quite uncommon, but it is well worth a place as a specimen tree. In leaf and growth much like the common ash, it yields large flossy panicles of white blossoms which are deliciously fragrant. See page 20.

CLETHRA BARBINERVIS

The best of the clethras for average gardens, this 4-5 ft. shrub bears its sweet bottle-brush cream-white flowers in quantity during early autumn, after which the leaves assume a rich yellow. See page 12.

ENKIANTHUS CAMPANULATUS

A most attractive shrub for spring blossoms and autumn tints. See page 18.

CYTISUS BATTANDIERI

A splendid tall shrub, perfectly hardy. The olive-green shot silver leaves are like a Laburnum and the flowers are in cone shaped clusters, which in summer have a scent of ravishing sweetness reminding one of pineapple. The upstanding racemes of bright golden-yellow pea flowers are indeed a beauty to behold.

Our 3-year seedlings bloomed this past season and we are very favorably impressed with it. We have been selling all we can grow and only have the following to offer this season: 1 yr. seedlings 6 to 15 in. at $5.00 per 10, $35.00 per 100; 18 to 24 in. at $1.00 each, $7.50 per 10; $50.00 per 100.

CYTISUS Burkwoodi. Maroon and red flowers.			
* 2 in. pot plants	$3.00	$20.00	$175.00
Maria Burkwood. Red with creamy-yellow keel.			
* 2 in. pot plants 1 yr.	$2.50	$20.00	
* 2 in. pot plants 2 yr.	3.00	25.00	
Praecox. Creamy-yellow flowers. Spreading.			
* 2 in. pot plants	$3.50	$25.00	
Scoparius (Scotch Broom). Rich yellow flowers.			
* 1 yr. S.	$2.00	$12.50	$100.00

DAPHNE Genkwa (Lilac Daphne). One of our good sellers. Easy to grow. Blooms early spring. Fragrant.

18 to 24 in.	$3.00	$25.00

DAVIDIA INVOLUCRATA—DOVE TREE

Dr. Ernest H. Wilson describes the Dove Tree in his book "Aristocrats of the Garden" as follows: "The distinctive beauty of the Davidia is in two snow-white connate bracts which subtend the flower proper. They are always unequal in size—the larger six inches long by three inches broad, and the smaller three and one half inches by two and one half inches; they range up to eight inches by four inches and five inches by three inches. At first greenish, they become pure white as the flower matures, the flowers and their attendant bracts are pendulous on fairly long stalks, and when stirred by the slightest breeze they resemble large butterflies or small doves hovering amongest the trees and are so freely borne that the tree from a distance, looks as if flecked with snow."

This is undoubtedly one of the most interesting trees grown. We have been unable to accumulate any sizeable stock, the interest being so great for it. Last season we sold over 400 with only the name and price in our price list. This season we have about 1000, probably again will not have enough. Our price is very reasonable considering the scarcity.

EXOCHORDA RACEMOSA

One of the best of the pearl bushes, making a well-balanced tree of willowy grace which is delightful both in the tender golden-green of its young leafage and elegant sprays of white flowers. See above.

The Rare Franklinia

A Very Unusual Flowering Tree

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From this shelter emerges four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. **There is a constant succession of blooms till hard frost.** We frequently get the unusual effect of a tree clad in crimson, autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than 3 or 4 feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens 30 feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing the sprouts which start from the base.

Franklinia prefers full sun, has proved entirely hardy about New York and hardy in favorable locations about Boston, Mass., and in Ohio.

We have found the Franklinia does much, better if it has plenty of moisture at planting time.

HOLLY (Ilex)

For many years we have been urging nurserymen to grow more holly. Fifteen years ago there was not very much demand for holly. If you will refer to our catalogs about that time and since, you will find we said. "The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell."

Try to buy nice holly now, see how scarce it is. We find demand increasing each season.

AQUIFOLIA. The well-known English Holly. Very glossy leaves, with large triangular spiny teeth, fruit a bright red. A hardy strain.

3 in pot plants		$4.00	$30.00
4 in. pot plants	$1.00	6.00	50.00

AQUIFOLIA BISEX. A variety of English Holly with both male and female flowers, thus producing berries on single plants. This is much in demand.

3 in. pot plants 2 yr.	$1.00	$7.50	$60.00	

AQUIFOLIA Femina. The cuttings in this lot were taken from trees when not in bloom or fruit, but are from named varieties. A very good selection and buy, if not particular in having the variety named. Berry bearing.

3 in. pot plants 2 yr.	$1.00	$4.00	$30.00	$250.00

AQUIFOLIA J. VAN TOL. Another form of English Holly with dark green leaves and occasional teeth. Berries are deep red, large, and showy. Heavy fruiter. One of the best. Probably the best for here in the East.

3 in. pot plants 2 yr.		$4.00	$30.00	$250.00
4 in. pot plants 18-24	$1.00	6.00	50.00	
12 to 18 in. B&B	2.50	22.50	200.00	

AQUIFOLIA Lily Gold (Teufil). This is one of the best yellow variegated sorts.

3 in. pot plants 2 yr.	$1.00	$7.50	$60.00	

AQUIFOLIA Little Bull (Teufil). This is a male variety and a good pollenizer for female varieties.

3 in. pot plants 2 yr.	$1.00	$7.50	$60.00	

AQUIFOLIA SILVER LEAF. The darker green center with bright silver edged leaves, makes this a handsome Holly. The fruit is red. One of our best sellers.

3 in. pot plants 2 yr.	$1.00	$7.50	$60.00	

AQUIFOLIA TEUFIL'S ZERO. Mr. Teufil told us this was one of his hardiest ones and a good commercial cut variety. Branches weep or droop.

3 in. pot plants 1 yr.		$5.00	$40.00	
3 in. pot plants 2 yr.	$1.00	7.50	60.00	

AQUIPERN BRILLIANT. A cross of Aquifolia and Pernyi with brilliant red berries.

3 in. pot plants 1 yr.		$4.00	$30.00	
3 in. pot plants 2 yr.	$1.00	5.00	40.00	

AQUIPERN FEMINA. A cross of Aquifolium and Pernyi with characteristics of both parents. Leaves plentifully toothed and a lustrous green.

3 in. pot plants 2 yr.	$1.00	$4.00	$25.00	

AQUIPERN MALE. A male type of above.

3 in. pot plants 2 yr.	$1.00	$4.00	$25.00	

CILIOSPINOSA MALE. Good foliage and good for pollenizing Aquifolia, Ciliospinosa, Cornuta and Pernyi.

3 in. pot plants 2 yr.	$1.00	$5.00	$30.00	

CORNUTA (Chinese Holly). A dense, slow growing, Chinese species, rarely 8 ft. high. Leaves sparsely spiny and of peculiarly rectangular form. The large red berries are very showy. These are grown from seed and will be mixed, both male and female.

3 to 4 ft. B&B	$4.00	$35.00		
4 to 5 ft. B&B	5.00	45.00		

CORNUTA BUFORDI. A form of Cornuta, but spikes on the leaves are not so prominent and it is more hardy than the type. Berry-bearing.

3 in. pot plants 1 yr.		$5.00	$30.00	
3 in. pot plants 2 yr.	$1.00	6.00	40.00	$250.00
18 to 24 in. B&B	3.00	27.50	250.00

30 to 36 in. B&B	4.00	37.50	350.00	

CORNUTA FEMINA (Chinese Holly). A berry-bearing form of Cornuta. Compact pyramidal grower. Leaves dark glossy green, oblong, with 3 strong spikes at the dilated apex, and 1 or 2 on each side; scarlet berries. One of the showiest.

3 in. pot plants 2 yr.	$1.00	$4.00	$30.00	$250.00

MALUS — FLOWERING CRABS

The Flowering Crabs are among the most charming of spring trees. They are not only beautiful when in blossom but many carry most ornamental and richly-colored fruit in the autumn. Most of the Crab family form graceful garden trees of medium size. They are quite hardy and require no particular cultivation, thriving best in a good loam and full sunshine.

TAXUS (Yew)

The Taxus are undoubtedly the most popular and useful of all the ornamental evergreens. We have been growing them extensively a good many years and the demand keeps increasing.

The English Yew (Taxus baccata) is not reliably hardy in the north, and many do not realize that the Japanese, and many forms of Media, are perfectly hardy in and around Boston, and the Japanese even in northern new England.

They are not so particular as to character of soil except that it should not be too wet, but they do appreciate plenty of good plant food. They are immune to many insect pests and plant diseases so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We have small quantities of larger sizes of many of these varieties but are too bulky and heavy to ship. These are for truck shipment only.

We honestly believe you will do well to plant and grow on some of these Yews.

Baccata adpressa. A compact Yew growing 4 to 5 feet high, with upright branches and dark green foliage.

Baccata Gracilis Pendula (Ramshorn Yew)
Upright grower, branches curved like a ramshorn.

*12 to 15 in. trans.	$4.00	$35.00

Baccata hibernica (Irish Yew). A strictly fastigiate form, with stout crowded upright branchlets; leaves radially arranged around the branches, dark glossy green, more obtuse than in the type. One of the most desirable evergreens of columnar habit for formal gardens. Do not recommend planting north of Philadelphia.

* 4 to 6 in. trans	$3.00	$20.00	$175.00

Baccata repandens (Spreading English Yew). A low form with wide spreading branches and dull bluish green, narrower and longer leaves, partly falcately curved upward. Hardy in New England and one of the best spreading types. Nobody seems to have enough of these the past few years.

* 6 to 8 in. trans.	$3.00	$25.00	$225.00
8 to 10 in. trans.	3.50	30.00	

Cuspidata (Spreading Japanese Yew). For any and every purpose in which evergreens are required the Japanese Yew can be recommended. Immune from most diseases and pests. Withstands shade or full sunshine. Dark green at all seasons of the year. Grows broader than tall.

MORE HATFIELD YEWS

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. We are giving brief descriptions.

Media Hatfield No. 2. Real dark foliage, upright grower; very dense; needles medium length. Very good.				
* 4 to 6 in. trans.		$2.50	$20.00	
* 6 to 8 in. trans.		3.00	25.00	
Hatfield No. 6. Somewhat like No. 8 in growth but twigs are not as heavy; leaves narrow. Very graceful.

TINGLE'S YEW SELECTIONS

The following five varieties of yews are our own selections and we believe you will find they are very good.

Media T 31. A new one of our own selection. Grows in semi-globe shape. Complete, good color, grows fairly rapid. This has attracted much attention here.

* 8 to 10 in. trans.	$3.50	$25.00	$200.00
*12 to 15 in. trans.	4.50	35.00	300.00

Media T 33. Slender, upright grower. Foliage dark green. Useful in narrow spaces. One of our selection.

* 6 to 8 in. trans.	$3.00	$20.00	$175.00
*10 to 12 in. trans.	4.00	30.00	250.00
*12 to 15 in. trans.	4.50	35.00	300.00

Media T 34. Full-bodied upright grower; foliage little darker than T 33. Capitata form comes good from cuttings.

* 4 to 6 in. trans.	$2.50	$15.00	
* 6 to 8 in. trans.	3.00	20.00	
* 8 to 10 in. trans.	3.50	25.00	

Media T 35. This is very much like Cuspidata Nana. Foliage not quite as heavy and grows much better. We think it is a much better plant.

Claims, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.

This nursery was started just 57 years ago by the present owner. We have made many mistakes but we believe our customers will agree that we have always tried to give a dollar in value for every dollar received. This will be our aim as long as The Tingle Nursery Co. stays in business. If you have any reason for complaint, tell us.

We are having a very marked increase in sales of Flowering Crabs the past few seasons. Are you using them?

SYRINGA PALIBINIANA

This dwarf lilac from Korea must surely rank as one of the finest deciduous rock garden shrubs to come to us from the Far East.

Syringa palibiniana has much to commend it. Given a light, leafy soil with good drainage and a sunny position it will thrive and take many years to reach an ultimate height of about 3 ft. The sweetly-scented, pale mauve sprays are produced abundantly in late spring, and it makes an ideal shrub for pot cultivation in the alpine house.

In spite of such virtues, S. palibiniana is still a comparative rarity in gardens. See page 31.

For Connoisseurs

MAGNOLIA WILSONII

A deciduous shrub or small tree, **Magnolia Wilsonii** makes a striking picture in May and June yith its large white, pendulous flowers and prominent rosy-purple stamens. The flowers are fragrant and this native of China gives of its best when planted in partial shade, where it will receive some protection from late frosts, which may spoil the splendid blooms. See page 32.-

RHODODENDRON VIRGIN

Exceptionally Hardy White

A northern New Englander who knows Rhododendrons well, says of a hybrid Rhododendron named Virgin, "it is the only white Rhododendron we know of that is hardy north of Connecticut." In Rhododendron flowers, white is not held in such high regard as the other extreme, red, but here is a prue white that demands admiration. In Vermont, with low temperatures, in trials of all kinds of hybrid Rhododendrons and Azaleas, this one has stood the severe tests. See page 39.

Extract From Florists Exchange.

COTONEASTER LIAKING

This is exceedingly prostrate and makes a groundcover quickly. Foliage is evergreen, glossy on top and dark green, light green and dull beneath. Berries are large and dark red, flowers white. This variety first came into the United States via the USDA Plant Introduction Department. See page 15.

STEWARTIA PSEUDOCAMELLIA

The cup-shaped, creamy-white flowers with attractive orange-yellow anthers are freely borne in July and August—a period when most flowering shrubs are past their best—and an additional attraction is the autumn colouring when the foliage assumes brilliant red and pellow tints. Introduced from Japan in 1874, it is still rarely to be found in gardens although it is hardy enough. Its ornamental value has long been appreciated, however, for it received a first class certificate when shown before the Royal Horticultural Society. See page 40.

ZENOBIA PULVERULENTA

For a lime-free, well-drained loamy soil this shrub does equally well in a light or shady position. The waxy, pure white bells are freely produced in June and July and are delightfully fragrant. It is a desirable, almost evergreen, plant and received a first class certificate. See page 48.

Azaleas

Sizes of azaleas are as follows: 2 in. pot plants are a rooted cutting grown in the pot one season, 2 yr. size grown one year in pot and one year in field beds, 3 yr. size have been grown in pot one year and field beds two years and 4 yr. size grown in pot one year and field bed three years.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing—thousands of them being sold for Easter, Mother's Day, and Decoration Day. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many of the varieties are hardy out-of-doors as far north as Long Island. They are extremely floriferous, and in season, the blossoms completely cover the plants. The colors are almost every hue and shade except yellow, as you will find below.

1 to 5 at each rate, 5 or more at the 10 rate, 50 or more at the 100 rate, 250 or more at the thousand rate.

Claims, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

GROWING GOOD AZALEAS

Azaleas will grow in full sun or in shade. In the sun you will have brighter colors and growth will be shorter. We prefer a little shade if convenient. The small pot-grown plants should be planted about ten or twelve inches apart in a prepared bed consisting of about equal parts of good acid soil and peat moss or rotten leaf-mold, with about one-half shade.

Azaleas like acid soil with plenty of peat moss or leaf-mold in it. As a fertilizer rotten cow manure, cotton-seed meal and tankage are good. Use this in early spring and keep well mulched with peat moss or leaf-mold and keep the plants well watered during dry weather.

For scale and red spider use Volck, one to fifty.

If your soil is not acid enough we suggest you use Aluminum Sulphate or Sulphur.

NOT OPEN ON SUNDAYS. We do not have help to dig stock on Saturdays but if you want to pick up stock on Saturday let us know long enough in advance so we can have it ready for you. Closed at noon Saturdays.

Our stock is all government inspected, and a certificate of inspection accompanies every shipment.

GABLE'S HARDIER AZALEAS

Mr. Joseph B. Gable of Pennsylvania has spent almost a lifetime working with Azaleas and Rhododendrons. Many years ago he started breeding azaleas with the hopes of producing a hardier type of evergreen azalea in a good color range than then available. He has had wonderful success and is now recognized as the leader in this field.

As to hardiness: these varieties will average hardier than Hinodegiri and Amoena and much hardier than the other Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the past few winters with only negligible injury to a few. Most of them were uninjured.

VUYKIANA AZALEAS

A new race of large flowered Japanese Azaleas, produced by crossing hardy Azalea Malvatica hybrids with Azalea Mollis. Sturdy growers, prolific bloomers. From the information we have they are much hardier than the Kurume Azaleas. Flowers range from 2 to 2½ inches. All bloom late mid-season. Plants grow tall.

PALESTRINA. We are recommending this to use in place of Ledifolia Alba for a tall growing whitebloomer. Last season when Ledifolia Alba were both bud and bloom killed, Palestrina came through without any wood damage and plenty of white flowers. Try it for a hardier tall white.

* 2 yr. field beds XX trans.	3.50	27.50
* 3 yr. field beds XX trans.	5.00	40.00

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybirds—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts. In connection with these Hybrids we suggest you try out the new Gable varieties we are offering.

CHUGAI AZALEAS

A new group from the Chugai Nursery Co. near Osaka, Japan. These are late flowering. Flowers are usually variegated, white or pink ground with red, lilac or purple stripes, white base with colored margin, or purple with white variegation and edge. These need more and wider trial before we can recommend planting in exposed or colder sections.

The following descriptions were furnished us by The Chugai Nursery Company.

1 to 5 at each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the thousand rate.

If a variety is listed at 10 rate and not each rate there will be an additional charge of 15 cents per plant if less than 5 are ordered.

GLENN DALE AZALEAS

We began growing these Glenn Dale Azaleas in 1941. During the past few years, since they are becoming better known, the demand has increased rapidly. Most all the reports we get from the growers are very enthusiastic. They are doing well in some sections where the evergreen varieties were not supposed to grow.

Many who have seen our fields of these Glenn Dale Azaleas in bloom expressed their amazement and joy at their size, coloring and quantity of bloom. You folks who have been dealing with us for the past many years know we do not recommend a plant unless we really believe in it. We do suggest you try some of these Glenn Dale varieties if you can grow any of the other evergreen azaleas and while you may have some disappointments we feel sure you will be greatly pleased with their growth and beauty.

These one-like descriptions do not tell you much but we do have a special booklet that describes them much more fully. Sent on request—no charge.

Sometimes when Azalea flowers are described as striped or flaked on white they will appear as a solid color. When this occurs the branch should be cut out. This seems inherent with the variety—not any fault of the nurseryman.

Capital Letters after variety name indicate sizes available in that variety as capital B means 2 in. pot plant size, capital C means 2 yr. field beds XX trans., and so-on. We hope you will understand this system of indicating sizes as it saves a lot of space in catalog. We have been using this system for Crabapples several years and it seems to be working fine.

We will furnish one to five plants of a variety and size at each rate; five to 25 of a variety and size at the ten rate; 25 or more of a variety and size at the 100 rate.

Plant Propagation Practices

A new book on propagation by James S. Wells. It is about the most practical one of its kind that we have ever seen. If you propagate plants and want to order this book we will let you return it if you do not think it worth the price of $7.95 and we will return your remittance. Contains 344 pages, and many illustrations.

The Arnold Arboretum Garden Book

A new book by Donald Wyman, 354 pages and priced at $6.50. Just one plant or tree will pay for it and we will guarantee you will want to keep it. If you don't think it worth this send the book back to us and we will refund your $6.50. We have found several single items in it worth more to us than the cost of the entire book.

AMERICA'S GARDEN BOOK by the Browns. This 750 page garden book is full of information on all phases of gardens—Flowers, fruits, trees, shrubs, etc. A lot of information for only $7.95 postpaid.

THE AZALEA BOOK by Frederic P. Lee and many other distinguished Azalea growers. This book tells more about Azaleas than any other source we know of and it is told in an understandable language so the amateur as well as the professional can easily understand it. If you want to order it and for any reason you are not satisfied we will refund the $8.95 you paid us for it. Price $8.95 postpaid. 324 big pages.

TREES FOR AMERICAN GARDENS

For the right tree in the right place, Dr. Wyman has evaluated 745 species and varieties and has supplied concrete information on their appearance, habits and uses. He suggests trees for every situation. 376 pages. 100 photographs and maps. $8.00.

THE CULIVATED CONIFERS OF NORTH AMERICA

This thorough treatment of the conifers covers one thousand species and varieties from the dwarf yews to the giant sequoias. The adaptability, ruggedness, ornamental qualities, life, rate of growth, propagation, and planting of the various kinds are described. Included are the control of insects and diseases, and the use of conifers in landscaping. By L. H. Bailey. 452 pages. 72 photographs, 114 drawings. 7¼"x9¾". $13.50.

WINDOW-BOX GARDENING by TEUSCHER

Plants grown in such outdoor containers as window boxes, tubs, urns and hanging baskets require specialized, though simple care. Mr. Teuscher tells what to do, from building the box to proper winter care of plants. Descriptive lists give details of culture. 180 pages. 61 photographs, 8 drawings. 5⅜"x8½". $3.95.

FLOWERING CRABAPPLES. Arie den Boer. $4.95.

This is an excellent and authoritative book on growing Crabapples. Describes and illustrates the varieties. Tells when and where originated, size and color of flowers, leaves, and fruit, habit of growth and recommendations for planting situations. Over 200 pages. If you are interested in Crabapples you will appreciate this book.

EVERGREENS AND FLOWERING FOR THE HOME

Katherine M-P. Cloud. $4.95 postpaid.

This is the book for the small home owner who wants to landscape his grounds attractively without too much burden. Also valuable to the landscaper in planting small places.

EVERGREEN FOR EVERY STATE

Katherine M-P. Cloud. $4.95 postpaid.

An easy to follow, non-technical, authoritative guide to the effective use and practical care of evergreen plant material. Among the items stressed are propagation and growing of such favorites as azalea, boxwood, camellias, hemlocks, hollies, junipers, rhododendrons and yews.
